WHAT MAKES MAIN STREET GO?

This week throughout the 50 states some 11,000 editors of smaller daily, weekly and semi-weekly newspapers will lock up their forms and "go to press." Their papers will carry the most circulated written record of the people and events the problems and opinions that shape our lives in the community, state and the nation. Their editorial pages provide the greatest forum of independent free expression in the world. The value of this in a country where majority opinion will decide public policies with which we all must live cannot be overestimated.

On the pages of these thousands of papers will run the advertising that gives the spark to the engine of private enterprise. Our tremendous transportation and retailing systems, capable of moving and displaying all the nation's wares, would be of little use unless people knew what products were available, at what cost, where they could be purchased, and in addition, were inspired with the desire to buy.

Advertising makes Main Street go in every city, town and village throughout the 50 states. The head of every family knows that the only way to find the right price for the quality merchandise desired is to compare the advertisements, whether the problem is making out the week's grocery list, buying a new house or trading in the old car.

Advertising supports the radio and television programs, the magazines and periodicals which inform, entertain and make independent newspapers possible. There would be no free press were it not for advertising by the local merchants and industries who support the press but do not control it.

Whether you are selling, buying or merely interested in remaining a free informed citizen of the United States, advertising performs a three-sided and indispensable service.

Economic Intelligence says, "There are two ways of handling maturing debt; either retire it through accumulated Treasury surpluses, or refinance it by issuing new securities. Most of the time the treasury is forced to use the second alternative." Intelligence concludes that advancing refunding does not solve key problems of debt management, but it provides greater flexibility to the Treasury and is a valuable innovation. Such refunding is all right as long as too many don't take it for granted as a way out of paying the national debt.

Why the editor's job is a headache. "Professor Ernest Brennecke, of Columbia University, is credited with the discovery of a sentence that can be made to have eight different meanings by placing the word 'only' in all possible positions in the sentence. 'I hit him in the eye yesterday.' —Coronet.

"It does seem peculiar," says the Johnsonburg, Pennsylvania, Press, "that the Rural Electrification Administration—socialistic retailers of electric power in many areas of the country—can, by law, borrow money at 2 per cent from the Federal government and, because they have surplus, loan it back to Washington for 3 1/2 per cent.

Belle Glade-Pahokee Directory Is Out

If you didn't make the current social register, or "blue-book," let it disturb you no longer. The Belle Glade and Pahokee City Directory, including Canal Point, Chosen and South Bay, was published by R. L. Polk and Co., of Richmond, Va., is out this week and you've probably made it - if you live or work in Belle Glade, Pahokee or vicinity and are at least 18, that is.

The City Directory is a peculiar book, alone in its field, and with a style all its own. Like the dictionary, it says much in a few words, many of them abbreviated to a "skelton." While it does not attempt to rate credit, it does furnish clues in this direction; it distinguishes between corporations and copartnerships, bachelors and bachelorettes, misses and matrons, employers and employees, executives and janitors. It is democratic in that alphabetical sequence is the ironclad rule of priority in the listings. Thus one may note that here for once pauper and millionaire, ragsman and Beau Brummel, workman and "big game" hunter, carrier and captain of industry, scrubwoman and social dowager "Judy O'Grady and the Colonel's Lady," rich man and poor man, beggar man and thief, rub elbows.

The new edition is a substantial handy volume listing 8,481 names in Belle Glade, Pahokee and vicinity. The combined names of man and wife are considered as only one name, the Publishers pointed out.

Special features of the Directory include the designations of professions, occupations, professions, heads of households, marital status, wives' names, and homes and places of business. The directory also includes an illustrated telephone directory and an illustrated story by the Chamber of Commerce.

The Publishers commented on Belle Glade's and Pahokee's wide business diversity, pointing out that they found many different kinds of business and professional enterprises in operation here, ranging alphabetically from "Accountants" to "Wreckers-Rebuild," and chronologically from "Music Teachers" to "Television," and running the diversified gamut thru "Automobile Renting," "Solar Farms," "Flour Dealers," "Laundries" — Self Service, "Dairies," "Dry Goods," "General Merchandise," "Baby Sitters," "House Movers" etc.

The Belle Glade and Pahokee City Directory functions as a sort of ambassador for these busy cities over the country, showing outsiders "who's who, what, where and how," the Publishers pointed out. The latest issue of the book is distributed to numerous branches of the free Directory Library system operated country-wide by the members of the Association of North American Directory Publishers, of which R. L. Polk and Co., is a member.

(FNF) — The Florida Development Commission predicts that the state's tourist industry will experience the biggest winter season in history. The agency notes that all major rail, bus and airline companies are pouring millions of dollars into new equipment and facilities to transport northerners to the state.

"SMALL BUSINESS"

By C. WILSON HARDER

It is no secret that one of the many problems of the new Congress and new administration will be the farm problem.

Perhaps it will even take a display of raw courage to at least mitigate or alleviate the problem insofar as it affects the American farmer. The American farmer, for these purposes, is not a statistic, but a man, a woman, or a child, or a bad C. W. Harder judgment, they are stuck with an excessive inventory, there comes a time when the moment of truth must be faced.

Sen. Karl Mundt believes it is high time that something be done about the situation, pointing out that it is now costing the taxpayers just to store surplus wheat over a half million dollars per day, almost a half million dollars per day to store surplus corn, over a quarter million dollars per day to store surplus sorghums.

In other words, it is costing about a half billion dollars per year to pay storage costs only on these three commodities. Much of it has become waste for human consumption, more goes down in quality every day.

Sen. Mundt believes it is high time that some steps be taken to reduce their surplus product to a level for which the market has a use. In Europe this is a common practice, he reports.

Sen. Mundt suggests that if gasoline were to contain five per cent alcohol, the public would be helped.

Livestock Board Under New Name

R. L. Dressel, Miami and Lake Placid dairymen, have been elected chairman of the technical committee of the Division of Animal Industry, it was announced today by Doug Conner, Commissioner of Agriculture.

At its organization meeting at the Capitol this forenoon, the committee, an advisory group on livestock matters to the Commissioner, also elected Carl Zimmerman, O'Brien swine raiser, as vice chairman and confirmed the appointment of Dr. C. L. Campbell, State Veterinarian, as Director of the Division.

Charged with the duties of the previous Florida Livestock Board, the Division of Animal Industry is one of many new agencies created by the 1959 Legislature. By law, the Division Director is secretary to the advisory committee.

"Outstanding Entry" Awarded Patonettes

Mrs. Gladys McDonald has received from the Chamber of Commerce of Coral Gables an "Outstanding Parade Entry Award" for the "Patonettes" for their performance in the Jr. Orange Bowl Parade.

These girls, under the direction of Miss Pat Anderson, are good advertising for Belle Glade. Last Thursday night the group marched in the parade in West Palm Beach heralding the opening of the Palm Beach County Fair. The parade was headed by Gail Parker, Sandra Rhymes was the drummer for the group and will continue to march with the parade at the 1961 Chippewa Young when he doesn't have to march with the Belle Glade Band for the same event.

Brown Haired Jeannies At Foster Memorial

Three prominent musical figures from New York, Louisiana and Georgia will compose the panel of out-of-state judges for the 10th annual "Jeannie With a Broom" contest. The contest is to be held at the Stephen Foster Memorial on the Swanee River Feb. 11.

Thelma A. Bollen, special events director at the Foster Memorial today announced the panel of adjudicators who will select Florida's outstanding girl vocalist in the 17-21 age group. Some 20 young women have qualified to seek the coveted "Jeannie With a Broom" title and a \$500 music scholarship offered by the Stephen Foster Memorial Commission.

Sigmund Spaeth, of New York City, Mrs. Frank A. Vought, of Painesville, La., and Dr. William A. Hoppe, of Mason, Ga., were listed as judges. Dr. Spaeth will represent the American Society of Composers, Authors and Publishers (ASCAP), and Mrs. Vought will represent the National Federation of Music Clubs, according to Miss Bollen. Joyce Marie Garland, Brooksville, legal secretary, was winner of the 1960 auditions and will present the trophy to welcome her successor to the title.

Uncle Dan From Democrat River

Dear Mister Editor:

My old lady told me at breakfast this morning I was barking up the wrong tree by always hollering about politicians. She allowed as how there ain't nothing wrong with the politicians, claimed while this country needed a new set of people. I couldn't figure out if she was serious or getting sarcastic, so I just said pass the butter please and it looks like we might get a nice shower today. Me and My old lady got along fine, despite the fact we've been hitched now for about 40 years. And one of the reasons there ain't been no talk about divorce in my time is on account of when things get edgy around the place, I just get me a chair out in the front yard and start counting the shingles on the roof till the storm blows over.

Gitting along in married life is like handling a pair of mules. I just said pass the butter please and it looks like we might get a nice shower today. Me and My old lady got along fine, despite the fact we've been hitched now for about 40 years. And one of the reasons there ain't been no talk about divorce in my time is on account of when things get edgy around the place, I just get me a chair out in the front yard and start counting the shingles on the roof till the storm blows over.

Yours truly,
Uncle Dan

newly-weds traveling east on one of them, the newly-divorced going back west on the other.

Gitting away from home domestic situation for a moment, as television feller Jackie Gleason said the other night that the formula for success was to work half as much and get twice as much for it. That seems to be the national trend in recent years. I reckon History is mighty puzzled over us, keeping the country strong and free and broke all at the same time. We're the only country in the world that's ever been able to pull this trick. We do it by using a slight-of-hand tax system. They say we got three million laws in this country trying to enforce the Ten Commandments. No matter how many we got, Mister Editor, it's a safe bet that more'n half of them has to do with taxes. And I ain't never saw nothing in the Ten Commandments about taxes.

Yours truly,
Uncle Dan

Christians On The Move

Jehovah's Witnesses, who travel more than 5,000 miles each year attending religious conventions, will be in Bartow, Fla. for a semi-annual assembly at the Polk County Agricultural Building, February 3, 4 and 5, 1961.

According to officials of the Watchtower Bible and Tract Society of New York, such assemblies as these are regularly arranged for the purpose of Christian fellowship and discussion of Bible prophecy which we see being fulfilled in our day.

This assembly, local in scope, takes in 20 cities in southern Florida. 1,000 ministers and their families are expected to attend the weekend convention. Later this year hundreds of thousands of Jehovah's Witnesses will attend conventions in cities throughout the United States and Europe.

Assembly Theme: The theme of this 3-day assembly is: "By Faith by Jesus Christ." James C. Zee, president minister of the local congregation, expressed on behalf of the 23 who will be attending this assembly, their keen anticipation for the scriptural information to be gained at this gathering.

Zee said, "Not only are we aware of our need to be taught by God through his Word, The Bible, but the ever increasing need to teach others the comforting message of God's Kingdom, which will bring peace to all mankind," he said.

D. J. Thomas, district director, recently assigned to the Southeastern United States, will supervise assembly arrangements. He will deliver to the congregated throngs, a report on the growth of the organization during the past year. There are now 916,332 active ministers preaching and teaching in 179 lands. Those who highlight the convention with the public address: "Is God Interested in The Affairs of Men?" on Sunday, Feb. 5 at 3 p. m.

Highlights of Assembly: Jan. 27: Mr. and Mrs. George Phillips (Dorothy Neff) announce the birth of a daughter, Nancy Jean, at Belle Glade Memorial Hospital.

Jan. 28: Mr. and Mrs. Samuel Phillips (Olympe Hughes) announce the birth of a daughter, Connie Joyce, at Belle Glade Memorial Hospital.

Grandma To Junior Cowboy Raulersons

Mr. and Mrs. Ray B. Raulerson and Mrs. Mrs. Joe Cherry and sons, Barney and Bruce, three-generation Pahokee family were chosen to represent Palm Beach County at the South Florida Fair and Exposition open at West Palm Beach Fairgrounds on U. S. 98 thru this week.

All six members of the Raulerson-Cherry can combine forces to operate the Ray Raulerson ranch, nine miles east of Pahokee where 2,500 head of Brahman beef cattle range the range.

There's nothing antiquated about the Ray Raulerson-Joe Cherry beef production enterprise. Raulerson, a developer of Glades' muckland to transform into a cattle grazing base 18 years ago, and his son-in-law, Joe Cherry, born and brought up in the Glades, is the son of first settlers in this big cattle-rising section of the country.

The Cherrys, (Mrs. Cherry was the former Miss Nadine Raulerson) live on the range, an attractive ranch house where good housekeeping equals meticulous operation of their agricultural industry.

Recognition for their up-adding methods of farming is not new to the Raulersons.

Their daughter, Mrs. Cherry, some years ago as a high school student raised a Brahman steer, when the Glades livestock market opened in Belle Glade.

Her father contends that "by comparison with Kissimmee, where ranches are considered average size when they extend over 50,000 acres, and are rated as big when they cover 250,000 acres and over, we are just small fry."

But in the opinion of the selection committee of the South Florida Fair, the Raulersons and the Cherrys are model agriculturists.

When members of the family attend the fair as guests of South Florida Fair Officials, there will be free rides for Barney and Bruce including a merry-go-round with mechanical ponies. If the young cowboys reach their ranch regalia — cowboy ten-gallon hats, hand-tooled leather boots and jaunty khakis — they will present a colorful sight at the Fair.
